

FIRM PROFILE

Leni Schwendinger Light Projects LTD creates lighting environments for architectural and public spaces all over the world. These works energize architecture, landscape and transportation and transit infrastructure with the ultimate objective of connecting people to each other and to their surroundings, especially during the nighttime hours.

For over a decade, her Light Projects studio has been a magnet for professional multi-disciplinary collaborations - with project-specific design teams staffed by architects, engineers, and graphic designers committed to Leni Schwendinger's vision and perfectionist mandate.

Balancing technological sophistication, solid project management and artistic verve, the Light Projects methodology has produced a distinctive series of interactions with clients ranging from state and municipal agencies and architectural and engineering firms to museums and events planners.

Light Projects studio has enjoyed extensive press and media coverage, most recently in Architectural Lighting Magazine. The article "Urban Light" features the design for Jamaica Center Streetscape, at the 159th Street LIRR underpass. The other project quoted is a ramp and pedestrian-focused, aesthetic design for the Port Authority Bus Terminal.

The Light Projects' studio has garnered awards from professional societies such as the Illuminating Engineering Society, Society of Environmental Graphic Designers and International Association of Lighting Designers. Profiled in films and international publications, Schwendinger has received awards, including the prestigious "NYFA" from New York Foundation for the Arts. She has lectured and taught widely throughout the United States, Europe and Japan, and is currently on the faculty of Parsons School of Design; Architecture, Interior Design and Lighting Department, New York City.
